

Carbon Reduction Plan

Supplier name: IMDS Operations LTD

Publication date: 28/08/2026

Commitment to achieving net zero

IMDS Operations LTD is committed to achieving net zero emissions by 2040.

Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 2026 (ongoing)

Additional details relating to the baseline emissions calculations:

Company was established in July 2025, not fully operational until October 2025 baseline reporting was started as of January 2026.

Carbon Reduction Projects

- **Switch to Green Tariffs:** Transition to 100% renewable electricity and certified green gas contracts.
- **Zero Waste to Landfill:** Establish robust recycling and diversion streams for food waste, electronics, and general packaging materials.
- **Sustainable Travel Policy:** Encourage employees to choose lower-carbon travel methods—such as trains, buses, and bicycles—over private car journeys wherever feasible.
- **Virtual-First Meetings:** Prioritise virtual meetings over carbon-intensive travel, unless physical attendance or clinical support is strictly required.
- **Sustainable Supply Chain Engagement:** Advise customers on consolidating orders into bulk shipments to lower delivery frequency and associated transport emissions.

Declaration and Sign-Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 (PPN006) and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol Corporate Standard, and use the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where applicable), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Accounting and Reporting Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
